Even if you do decide to use the free robux promo codes for roblox, there are still risks involved. You should never share any information that can be used to identify yourself with other users in the website. A lot of people will not even want you to have these codes and they will always try to find a way to get them from you. You can easily detect who they are because they will always ask you for the code even if it is against the rules in Roblox itself. They will also tell their friends about how they managed to get a code and ask them if they want this one as well. You can easily avoid these people by knowing where you got your code from and who gave it to you.

In November 2017, ROBLOX released their third YouTube channel called "ROBLOX Explorers". This channel features a series of Epic Adventures which are adventures that will feature a group of friends going on all sorts of amazing adventures. These will include other famous gamers and YouTubers. In February 2018, ROBLOX released their fourth YouTube channel called "Roblox Top Model 5" which features season 5 of the same show as Roblox Top Model. Also that month they released a collaboration with the popular web comic Homestuck which is called Homestuck Adventure Game. On March 6, 2018, ROBLOX released their fifth YouTube channel called "Roblox Top Model 6". This one will feature the same show as Roblox Top Model and will be aired on a weekly basis.

In October 2014, ArenaNet announced that Guild Wars 2 will be fully free-to-play with no restrictions on level or content,[60][61] due to being released as a core game in China, where games must provide full unrestricted access or it cannot be published by the People's Republic of China's Ministry of Culture. Within a few months, the game had rebounded from the effects of these restrictions, as the player base had grown to exceed that of the Asia server.

In February 2014, the popular user "mcepcity" was hacked by unknown users who had created a character as an avatar for the hacker group "Lizard Squad". The avatar's name was changed to "pedobear", an image widely associated with child pornography. Several other users' accounts were also compromised by the group's activities.

ROBLOX has also been criticised for not putting up a good enough amount of effort to make ROBLOX itself safer for players. The site is not very well secured and has been known to have exploits since 2010, like one in the "Spectator Mode" which gives users complete control over other users' games with no checks or balances. It also allows users to upload executable files onto ROBLOX servers without any notification and allows them full access to other user's games and accounts.
