I don't really have an answer for you, but I'm sure this is a problem that other people have as well. I think the game needs to be made less serious because people will not want to spend money on fake money (robux) if they know there's no real value behind those items they purchased with their fake money. The best way to accomplish this would be to make hats, shirts, etcetera for gamers who spend more than a certain amount of money.

On September 4, 2018 (3:00 PM), ROBLOX released a new game called "Roblox Shops". This game is similar to Roblox High School and Friends, only that it's a shop simulator. The gameplay involves shopping and using items in order to get more money as you play the game. The game was started by the company's developer and the first player of the game was the CEO.

ROBLOX has banned thousands of accounts, usually for viral videos made by "trolls" or people who want to annoy other users/admins. Most of the bans these users receive are handed out by administrators but every once in a while a user will get banned for a "troll" video or similar reason. Some are also apparently banned because they made potentially offensive comments in the chatbox, not for any type of post or action that breaks the TOS.

All you need to do is go to https://www.roblox.com/my/tasks and click on the 'Login' button in order to access the page (you might have to log out first). Once you are logged in, simply click on the task that you want and start completing it by following all the instructions that are given. There is no point of downloading a Roblox generator here because I have already listed down the best working sources of getting free robux for roblox which are completely legit and secure. GigaBux Pro is the most advanced Roblox Hack and the only one that can generate free unlimited robux for you. It works for both MAC and PC. The generator is 100% undetectable by Roblox and its creators. The generator itself is very easy to use as well as it comes with a step-by-step tutorial.

In 2014, ROBLOX took the block system offline due to an exploit that allowed users to convert infinite amounts of blocks into real currency. They eventually brought it back online after fixing the exploit.
