On February 16th, 2019, ROBLOX announced the launch of their new anti-fraud feature called "Verified Accounts." This feature verifies account data with third-party services like Google and Facebook. The company will enhance this feature in the future by allowing users to verify their accounts with other companies as well.[29]

I guess the only reason I still play Roblox is because it's a free game and that I don't have to pay for anything. After all, what's the point of saving up your money if you have to spend it all just to try and get on a game you really want to play? There are many games out there that aren't free like Minecraft, but at least they give you some sort of advantage. For example, Minecraft gives you tools which can help you dig more efficiently and quickly. But Roblox doesn't provide any sort of help or assistance towards the gameplay itself. And it's not like Minecraft was designed with children in mind; it was created for adults.

In August 2016, Roblox announced that they would be offering their service in China. ROBLOX later confirmed that they started to accept users from China in September 2017, during beta testing.[62] Due to Roblox's popularity on Steam Greenlight, they were removed from the platform as of October 17th, 2014.

In 2012, ROBLOX changed their logo. In January 2015, ROBLOX released a new website design with a few design quirks (like having your account avatar next to the gamertag that bought it in place of the previously used avatar) and having the games listed below on the homepage after some time for initial release followed by a notification saying they are opening more in 2015. On March 31, 2015, ROBLOX officially confirmed that they are making a game in virtual reality and that they will make a demo by the end of summer.

On July 29, 2016 (9:00 AM), ROBLOX released a new website design. This redesign was created in order to make the main site easier to navigate and find what they wanted at a faster pace. There are many new features that make the site easier to manage and update. There are many new pages and features added. The new page layout is designed with ease of use in mind.
