Roblox has been criticized by parents and others for its age-inappropriate nature, and for encouraging bullying. Some players have reported being bullied while in the game, due to language or other factors. Many of these players have been reported to take their complaints to Roblox's customer service team, only to be ignored or told that it was the victim's fault. It is also reported that the staff are biased towards certain users due to friendship rather than any sort of immorality on their parts.

In August 2017, a former employee posted a blog post detailing the company's "toxic" work culture and poor working conditions. The employee claimed that she was fired after speaking out about these issues and later filed a wrongful termination lawsuit against the company as well as several co-workers associated with her firing. The suit, which for the most part was dismissed, claimed that former CEO David Baszucki played an integral role in her firing as he forced the team to "ignore basic standards of professionalism". It also cited him for saying that "female workers in [his] office and in the tech industry were 'annoying' and should not serve in a high-ranking position."

The ROBLOX site and forum have received a lot of criticism from its users regarding many issues, such as: Administrators are able to delete user-created games without warning or notice. Users can't defend themselves since the only way they could do so is by contacting an administrator or lawyer. Administrators can ban users for doing anything they don't like or don't agree with. However, administrators have been known to ban users for no reason at all, usually if the user is a moderator or an insignificant/low-level user.

On October 10, 2018, Roblox announced that they will be selling 49% of their ownership stake to Tencent Holdings for \$100 million. The transaction is subject to approval by the Roblox board of directors and Tencent before it goes into effect. The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX.

Robux is the virtual currency for the game Roblox and it is used to buy a variety of items such as gear or apparel for an avatar. Roblox players can earn free robux through games, purchases or selling their creations on the site.
