The game has a number of features that help users to create their own games. Users can mine for materials in the sandbox and use them in their own games, or they can buy materials from other users in the Marketplace. The menu includes a number of categories, such as Buildings, Boxes, Characters and Game Objects. Users can tick these categories and use the menu to search for whatever they need.

In early October 2008, ROBLOX launched a blog that discusses game design techniques, new features and events in detail. This blog is updated regularly with posts from the ROBLOX development team as well as occasional guest posts from other entities such as users and other game developers.[41] In late November 2010, ROBLOX launched a forum with Frequently Asked Questions (FAQs) regarding common problems that users face when using ROBLOX Studio.[42]

Rated 5 out of 5 by Anonymous from The best game ever! ROBLOX is one of the greatest games I've ever played. It lets you make your own adventures with your friends or in single player mode! This game I'd give a 10/10 because you can build anything you want, and there are still many things to do. For example, if you're tired of building things, there are games to play on Roblox. You can be a police officer, a fire fighter, or even an architect! Roblox is a truly awesome game that needs to be experienced!

Since many online games have their own economies, it is possible to make a significant amount of money through playing those games (as well as copying others). As the economy is largely driven by player interaction, both positive and negative elements, this has led many players to claim that there is an inherent conflict of interest between game developers and users; in other words, "who pays gets spoiled?".

All you need to do is to follow the instructions that are provided for you. This should be more than enough for anyone out there to get started with! I would definitely recommend using this method if you are a beginner!
