You'll also receive notifications if anyone liked or commented on your suggestion, so it's easy to know if people were interested in what you posted.

ROBLOX is among the few websites that provide analytics data on their members. This data is collected from the number of visitors, members and games played. Many large groups have been created to publicize the statistics of ROBLOX. One such group is "We Hate Fake Players", which regularly posts ROBLOX statistics on its profile.[43]

I guess that's one of the reasons why Minecraft is so popular; it's simple and easy to understand, because of things like having to collect resources to build things. If you see a home on something like Roblox and Minecraft, it's probably built out of random things a lot of people gave you; whereas in Minecraft there are actual blocks which you can use in the game itself.

Users also have access to a vast selection of blocks in which they are able to build with. Some users may download free or paid objects from the Marketplace. Once bought, users are free to add new elements and edit them however they wish without paying anything else. Additionally, users have the option to buy premium blocks from the marketplace and be able to edit them more.

ROBLOX has also joined and partnered with other websites that are similar to it such as Minecraft (Minecraft in ROBLOX) and Robloxian (Minecraft on ROBLOX). These games include games such as MinexCraft, the Grand Theft Auto series, My Top Games, and many others.
