While this may be true for some cases, there are some individuals who make these videos just to deceive users into thinking that they have found a way in which they can get free robux for their accounts. This is usually done by editing the time stamp, making it look like they have gained several thousand dollars' worth of free robux within a short period of time.

I really liked playing my own games because it was fun to design a new world for my friends and myself. In my game I could make up anything I wanted. I could add trains, people, animals and pretty much anything else you can think of. I also liked making my own avatar because it gives me a lot of choices in making the way they look. Another thing I was really interested in was Roblox role play which is basically acting like someone else for a little while. You can choose one of your friends or even make up a new person and act like them until you want to stop again. This is good for kids because they get to learn how to act like they're someone else. It's also good for when they have to act in school and it can teach them a lot of things.

In 2018, ROBLOX announced that it will be taking a chunk of its earnings and give it to the developers among them. Some developers are making over \$5,000 USD per month using ROBLOX. Roblox has had two cases with Microsoft. Roblox was originally banned from Xbox Live due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.

ROBLOX released the "Achievements" update on June 20, 2017. This update introduced many new features for games, such as achievements, friends-lists, and more. Players can earn rewards by accomplishing certain tasks within their games and taking a screenshot to get them.

There are many other sites out there that also allow you get free robux and tix in your account. These sites will definitely change from time to time, but they all share a few things in common. They all give you promo codes for different games and features which have already been unlocked by their accounts. They will just give these codes out to other players who want them through the mail or via email.
