ROBLOX Studio 2.0: On December 28th 2018, ROBLOX announced a new version of their Studio known as "Studio 2.0". The company claims that it is meant to be a new version of their previous releases which contains many improvements and better tools. It also allows users to earn cash if they choose to sell their items in the catalog.[91] On January 1st, 2019, ROBLOX updated the game and added a feature which allowed users to get an early access for Studio 2.0.

One example of a troll game, created in 2005, was "Uppercut". This involved players being knocked into the air when they attempted to create their character. However, when the player hits the ground, they were shown a message saying that the creator of this game had disabled their inventory and that they had been defeated.

You can always go to YouTube and search up something related to roblox or "free robux". All that needs to be done is to click on the first video that has a link encouraging you to get free Robux. You'll then be directed to a page offering you an advertisement reward if you click on it.

ROBLOX has also been criticized on another level. Many people have said that they will never use ROBLOX again after the lack of response from the administration team. This is because even after reporting rule breakings, there is still no action taken against the players who do so. This has caused people to lose respect for the administration team.

On November 7, 2017, Roblox released their first real let's play channel, but it only lasted a couple of months before Roblox cancelled its plans for let's play channels. It stars RandomPlayer as he plays a wide variety of games on ROBLOX, including many popular games such as Angry Birds and Zombieland.
