I just wanted to let the readers know that Roblox is not a bad thing for children to play. It teaches them a lot of skills that will help them in the future. It teaches them how to be helpful, creative, and patient. I am writing about Roblox today because I am fairly new to the game and am trying to get used to it. I have had Roblox for about 6 months now, and I am sort of over it. However, I really love the game. It is a creative game where you can design an avatar and have a house to decorate. I just wanted to write this because I know there are a lot of people who have been searching for my story on Roblox. Everyone has their own opinions on the game, but as soon as I found out that my parents were coming to visit me on Friday, I found out that they were going to be seeing where I spend most of my time playing games online: namely <https://www.roblox.com/>. I was very and extremely shocked that I hadn't clicked on the site before this - it means I really could have been playing the game for a lot longer. A lot of my friends have played this game and now I'm starting to understand why they say it's such an addicting game!

Some parents of children who play the game have said that it is due to inappropriate content and language that their children are spending so much time on the site. Some of these parents reported being harassed by other players on the site when they themselves criticized Roblox. One parent said that far from being a "quality of life" game for his child, it was being used as a distraction to escape from reality. The following comments were made:

What kind of games does roblox provide? How do people play them? What are some other things they can do in the game? This article will answer these questions! I hope you enjoy reading it as much as I enjoyed writing it.
