On November 17, 2018, Moon Active released Coin Master: Puss in Boots "(Kasegi 2: Bukimi no Tane)" for Android as a free app (it is not available on iOS). This "Coin Master" title features an updated version of the popular video game "Puss in Boots". The game was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains microtransactions which can be removed by paying \$4.99 USD via in-app purchases."

Fun, but.. by Aqueela on 2014/12/14 12:46 First of all, I love the concept of this game and, as an avid puzzle solver, I enjoyed completing the puzzles needed for each level. The game has some great features such as timed puzzles, word hints and more. However, I do have a few criticisms. First of all, the ads are sooo annoying! I've downloaded over 10 games in the past 2 weeks and every one of them had to be deleted because of the ads. Secondly, I was kind of annoyed with having 2 sets of tiles in a level then receiving new tiles from the previous board when you complete it. Finally, the timed levels were not that challenging and could have been better developed (so that you could make mistakes without losing time)."

The third group of "card packs" was released on September 12, 2016. These card packs were formerly available through a special offer for 33% off the base price. This pack is the first to include cards that are usable in both games (PC and mobile). The cards were originally released as an exclusive offer for United Pixelworkers' second anniversary."

1. Enter your Google Play Store application and go to the hack tool's page. 2. Download the tool and install it on your device. 3. Once installed, open the game that you want to hack 4. Start the game 5. While playing, go to your "Shop" menu and tap on "Start" to begin a purchase (of coins in this example) 6. After you are done buying coins in-game by tapping the "Start" button, wait for a few seconds 7. Close the app using your multitasker, as this will save your current progress 8. Open up our tool again 9. Go to your game 10. Wait for the mod to load 11. Once the mod has loaded, tap on "Hack" and select "Just unlocked" 12. Go back to your game and start it again 13. Repeat steps 5 through 12 until you have "unlocked" the most recent version 14. Save your game 15. This will save your current progress and once you are done playing for the day, uninstall our tool 16. Uninstall any other third party apps that may have blacklisted Coin Master: Puss in Boots (Kasegi 2: Bukimi no Tane) 17. Remove and reinstall the app after a few days to pick up where you left off 18. Enjoy the game!"

Overall I found Coin master to be a fairly quick game to play, although it is not as addictive as some of the other games on this site. I would recommend giving it a try for 50 minutes or so and see if you enjoy it before you decide whether to purchase it at all. The game itself is free but there are unlockables such as achievements and costumes which can't be unlocked unless you decide to spend your in-game coins (which costs about \$2 per million coins). You can also still play the free version of the game without spending your coins, but you won't be able to unlock all the achievements and costumes as you progress through the game."
