There are two ways of connecting to your server: first is by using a computer directly connected to the internet through LAN (Local Area Network) port, and second is by using a mobile phone, tablet or any other device connected to the internet through WiFi or Data connection. If you choose the second option, please make sure that the username and password you have created for the account on Minecraft Bedrock Server are valid and correct. For best results, you should use a password that will not be easy for hackers to guess and change frequently. Also, please watch out for suspicious emails that inform you about your account and try to trick you into entering your username and password.",

Rust is primarily played on Slither.io, an online multiplayer server based in Germany with the majority of servers based in North America. Rust has been praised as being "pure fun" and "a breath of fresh air", while criticism included the poor graphics compared to other survival games such as "Minecraft". Due to its ability to be played on servers without custom content, it is also much less popular than Minecraft due to better compatibility of graphics with other graphical engines. On January 7th 2021, Steam announced that "Rust" had officially passed 10 million sales, and by August 2021, the game had sold over 3.5 million copies alone on Steam. As of April 20th 2021, "Rust" has sold over 5 million copies across all platforms including Steam",
