There are many different friendly characters such as zombies, skeletons, creepers, spiders and even skeletons with armor that can fight for you! You can tame these creatures with different tools like sugar or apples (or any other food) and make them fight with you against other hostile mobs.",

Minecraft is a sandbox video game by Swedish game developer Mojang. It involves breaking and placing blocks to build constructions, playing with other players online and exploring randomly generated worlds. The player can also use some of the resources to create new tools and armor, so it's a combination of building games like Lego blocks as well as first-person role-playing games.",

At its release on Steam Early Access, Facepunch Studios officially stated that their vision was to release "Rust" in a finished state by December 2014. The team also described this as being accompanied by an increased focus on gameplay over graphics. However, due to technical problems with getting enough funding for "Rust" and other games they were developing (namely Garry's Mod), Facepunch was forced out of Steam Early Access in June 2015.",

The best benefits of a Minecraft server are the ability to play with friends no matter what location they are in and the ability to play Minecraft Multiplayer on your own or with any group of players in which you share control of your servers. If you want to enjoy the benefits of a Minecraft server, it is recommended that you go through hosting companies like M2Hosting.com or ProvectusHosting.com, both of which offer complete solutions from start to finish. You will also need to purchase Minecraft server plugins such as CraftBukkit and WorldGuard from the BukkitDev website.",
