ROBLOX announced they would be making videos, dubbed ROBLOX TV, in early 2017. They released three in total before shutting down all three channels to focus on "Builders Club". The first was a short-lived comedy show hosted by Janitorman and Aron. The second was a short-lived reality show hosted by JhonnyFive from the "Testing Grounds". The third was a sports talk show called "Game Time" in which users could discuss various topics pertaining to sports. In each of these shows, they would later add other people to the cast like WoodysGamertag in Game Time.

Roblox has been criticized for an update they released in February 2018 that added "tattoos" to their avatars. The update was scheduled to be released on November 1, 2017, but it was delayed and finally released on February 5, 2018. This caused some users to report that they had tattoos on their avatar even though they never wanted them.

I personally think that the vast majority of Roblox games are for children. There is only a few games that are suitable for adults which were developed in recent years, but there are also a large number of games that have been around for years, and it is still very popular. I don't think there is anyone who has played this game since they were a child, so it's not like people will stop playing because they're unhappy with the newer games.

Roblox is a very fun game platform for kids because they can create their own worlds and game scenarios with a lot of mini-games and activities such as playing sports and fighting monsters. Roblox also has many free platforms that have educational purposes which mostly focus on teaching kids about problem solving, teamwork, learning how to share with others and other social issues. The players' avatars can speak their created languages or standard English.

In January 2017, Roblox permanently banned all accounts that were created by Arielle De La Rosa. The company said it was because of her "continued behavior", which included actions such as creating Emily Roe and harassing other users, as mentioned above. Although she had been blocked from Roblox for over a year, they said their original ban for her had been lifted in November 2016. They also stated that she could no longer be unblocked on their platform because of previous harassment reports against other players. The ban was not for her actions, but instead because of the continued harassment she had done.
