Rated 4 out of 5 by Anonymous from Great for kids I love this game because I have good time with my friends. For example, we build houses and race cars. I think the game is fantastic and it helps me to learn better. It's not just for kids because sometimes adults play it too. I love it so much and think other kids should play it.

Not all games are created equal and often we see them develop at an incredibly fast pace which makes us believe that this process will be smooth and easy but it doesn't always happen that way: first of all, people often have unrealistic expectations for themselves and secondly they forget to look at what others are doing and how the market reacts to new games.

Roblox and other similar games are compared in the table below. Game Similarities and differences ROBLOX Developed by David Baszucki. It introduced the ability to make your own places on the map and interact with other players in the same world. [127] There The first game to have a currency, where you earn coins through playing games. [128] It also introduced the ability for users to create their own houses by using a similar furniture system like in ROBLOX but with better design options. Habbo Hotel FriendBook was released, which is very similar to ROBLOX's Chat and Group Chat system where you can chat with other users from all around the world. [129] Habbo Hotel FriendChat was released, which is very similar to ROBLOX's Private Chat system where you can chat with friends from all around the world.

Roblox is also known for giving away free robux, tix or any other currency for a limited time. They will give these out on a special day and if you do not want to miss out on them because people are using them, then you should have just been using the free robux promo codes for ROBLOX already. These holds of the code can even be used as gifts among friends. There are very limited codes that they will give out though. If you want to be in line for one of these codes and still want to have fun, then you should always make sure that you do not use them too fast. This way, they will not release anymore codes and people will obviously lose out on having fun.

Not only that, but since "Robloxian life" lasts so long, many players have to pay to charge their battery or buy power packs and if players don't have enough money to spend, they can lose interest.
