As you can see from the image above, the most reliable way of getting free robux is by doing the missions which are listed under tasks. These missions are very fun to complete and they can be quite challenging as well. You have to complete a certain amount of these missions in a specific time frame. You can also do your friends' tasks and earn rewards for it. The task will reward you with different amounts of robux. Generally, you will earn around 50-100 Robux for completing a task which is equivalent to 3 testings on Roblox which otherwise costs 1 Robux each time. So it is obvious that you should complete as many tasks as possible.

This game has many bugs such as glitching which can happen at any time including in games. There is no way to report this glitch due to the fact that the button isn't there and you can only report it from the website. This is extremely annoying because you need to refresh the page and play all over again, but this usually happens when you are about to win.

Weebly Pages later went on to become Pikazo. ROBLOX is the first game that has allowed players to have voice chat. [121] ROBLOX is the first online game that allowed players to invite others into their world and even allow them to build things like they used to in PC games. [122] The next games that would allow users to invite others into their worlds were Habbo Hotel where they had their FriendBook and later on also added a FriendChat system in December of 2011, Club Penguin where you could invite fellow penguins into your world, and Mario8 since 2014. [123]

Roblox allows players to sell their own creations (such as hats and T-shirts) with unique names. These names usually contain the item name followed by "item" and sometimes the price. For example, the price of a hat called "Duck" would be listed as Duck item. If a player bought the Duck item for 5 Robux, it would cost 5 Robux once he bought it.

What I would love to see is more updates for games like minecraft, and many more updates. Also to add new games such as an RPG game (something similar to LOTRO) maybe something similar to wow where you come out of the game and control different characters. If we all work together we can get Roblox updated with these new games instead of waiting till now where there are a lot of glitches.
