On October 4th, 2018, Roblox introduced a new game mode called "Elevate", which had players build futuristic skyscrapers in the sky. Players were able to earn money by selling their custom skyscrapers for Robux. It was soon discovered that many of these buildings were copies from the game "Survival Island", prompting ROBLOX to ban users who had copied these buildings.[79]

They have also created a website called ROBLOX Studios which allows users to create and upload their own videos to YouTube in order to advertise their videos as well as doing tasks that can be made money such as editing videos, building websites, etc.[47]

The site is very buggy due to the fact that user-created games are made in such a way that users can alter almost every aspect of any game. However, this has upsides too as users can fix most bugs themselves. They have often been taken down because they are "offensive". This is hard to believe since the site has been around for nearly 10 years. ROBLOX allows people to advertise on their site for just about any product they want and will let them earn money with it. However, this can be considered a bad thing in some cases, as advertisers can create "scams", such as charging people \$5 dollars to create a game that can only be played by Admins or other users with unusual settings/roles.

Rated 4 out of 5 by Anonymous from AWESOME!! I love ROBLOX SO MUCH!It has all these cool games and places where you can buy stuff. It is a really fun game where you can make friends. Rated 4 out of 5 by Anonymous from Love it I've been playing this since 2006, still playing it today, I would recommend this to people 8-14. Some add ons are pricey but the game overall is great.

Who would want to play a game like this? Nobody really I would think. It's just like Roblox in that you can buy stuff with fake money, but there is no value in either one of them. The real issue is that the developer(s) of both games are making a ton of money from people who don't care about winning or losing, they just want to have fun.
