Rated 5 out of 5 by Anonymous from It is very fun! I love this game and will forever. I have a lot of friends that play ROBLOX so we play ROBLOX together. But we also make our own games in ROBLOX STUDIO so me and my friends can play them together to see who wins! Other than that, you just have fun on ROBLOX and get to know people a little bit better. I really love it! I think you should try it out! You can make a game on ROBLOX STUDIO which is super fun.

The game is not very challenging. Even though there are a lot of games available on it, there isn't much in the way of difficulty. This is a big negative in my opinion - especially for older kids who love to face tough challenges such as some video games on the market now which can sometimes be really difficult and where you have to wait for many hours in order to even pass the game. This might be a problem if you are playing with smaller children - some games on roblox are known to last for days or weeks before they finish. My 6 year old absolutely loves roblox and games like this are great for that age group. If you're looking to play with kids older than that then I'd suggest looking at something else. There is some violence in the game, but nothing major (for example you can only fight by swinging a sword or shooting a gun, rather than hand to hand fighting) and it's all in the context of a game. Overall we love it and it was worth the money!

ROBLOX has banned thousands of accounts, usually for viral videos made by "trolls" or people who want to annoy other users/admins. Most of the bans these users receive are handed out by administrators but every once in a while a user will get banned for a "troll" video or similar reason. Some are also apparently banned because they made potentially offensive comments in the chatbox, not for any type of post or action that breaks the TOS.

Anthem: On June 15th, 2018, ROBLOX announced a new game called "Anthem". It was a FPS which was heavily criticized for violating many of the company's policies. The game eventually received negative reviews from users who claimed it was simply an unfinished product. The company also ended up making an apology on their website.
