From June 12th 2018 to July 30th 2019, the Roblox network was under a major DDoS attack from a group called "Apothis Squad". This group was demanding that Roblox pay 10 million US dollars into their Bitcoin account or they would continue to perform DDoS attacks on the site. They also threatened to kidnap staff members and steal their hair if ROBLOX declined their offer. According to Roblox, this group caused 3.7 million dollars worth of damage.[103] The group also began sabotaging ROBLOX's YouTube channel by uploading offensive videos and ads towards users who clicked on it, which caused the platform to ban the channel in July 2019.

ROBLOX is also one of the first websites to allow users to play multiplayer games with each other using video chat (most notably Skype). Over the course of the game, players can interact and communicate with each other through 'conversations'. ROBLOX also used Skype for video chat in many of their games. Some unofficial ports of ROBLOX that are based on Build include Mac OS X, Xbox 360, iOS and Raspberry Pi. The Raspberry Pi port allows users to use a Kinect sensor or USB webcam. Mac OS X includes ROBLOX support built into the client and includes limited support for input from keyboards and mice using DirectInput, as well as support for NVIDIA 3D Vision.

Roblox is the currency used on many games running in the ROBLOX Universe, such as Rarest Monsters and BLOXelation. It was first introduced in 2017 for the game Shooting Challenge 2. In April 2018, ROBLOX introduced a feature referred to as "LocalScripts." LocalScripts enable users to locally execute C# code in-game. They can be used to access the hardware of a device running the game, or manipulate specific parts of the game. For example, by using LocalScripts, developers can create weapons that change their firing rate depending on how fast you pull the trigger.

On November 29, 2018, ROBLOX announced that they are partnering with Spin Master which will have various toys and scripted interactivity come out in 2019. The app will be called Spin Master Stories.[51] On December 11, 2018, ROBLOX announced that it would be partnering with LEGO to put the LEGO minifigures in the game. The toys will be available as virtual items for purchase.[52]

The territory restriction on new accounts for "TERA" was lifted in June 2012. At that time, players were also given a free transfer to a North American account. In February 2015, En Masse Entertainment announced plans to merge servers for "TERA" and also announced additional details about Season 2 of "TERA: Rising". The merger began on March 11 with servers down for two hours beginning at 5 am Pacific Time (8:00 UTC). This was followed by two more short downtimes on March 17 and March 26 before all character transfers were completed. The merger of servers resulted in the creation of a single player vs. player server and a single role-playing server. The role-playing server was created to stop the underpopulated game world from splitting into two more servers.[62]
