In order to check whether or not an app is safe to download, I have compiled a list that will show all of the apps that are 100% safe and you can directly download them from Google Play Store. Read my previous article titled "How To Download Apps Safely From Google Play Store ". You should check it out as well.

I guess the only reason I still play Roblox is because it's a free game and that I don't have to pay for anything. After all, what's the point of saving up your money if you have to spend it all just to try and get on a game you really want to play? There are many games out there that aren't free like Minecraft, but at least they give you some sort of advantage. For example, Minecraft gives you tools which can help you dig more efficiently and quickly. But Roblox doesn't provide any sort of help or assistance towards the gameplay itself. And it's not like Minecraft was designed with children in mind; it was created for adults.

If you play "Robloxian life" long enough, you'll notice that the costs really add up. For every point someone wins, the game will cost the player between \$3-\$10 depending on how many points are needed to win a double prize. Although this is not completely true for all games, it does affect most games so players can expect to spend a lot of money just for some points or winning prizes.

My parents really like Roblox and they think it's a great way for me to make friends. They think it's good that I'm able to talk to other people online, meet new people and talk to them offline as well. The game is very social, so they like it because I've made many great friends through playing Roblox. I really enjoy Roblox because it has helped me develop a lot of social skills, and it's also a game where you get to meet new people from all around the world. I will continue playing Roblox because it gives me the opportunity to have fun and make new friends.
