Floating Balls! I have noticed that when you are at a group world and getting on people's chat heads they should be able to fly around like on normal. We need this because there are so many times where such a little bug would make these people mad if they were floating anywhere near them because they would not know what to say. Even though there are thousands of people in the group there should be more room for them to float. I think that there should be more than one chat head. I have seen people report this bug but it has not been fixed and I really want to see it fixed.

In 2010, ROBLOX again added games such as: 'Mech', 'Space Age', 'Pirate Invasion' and more. The game 'Brothers in Arms' was also released on January 23, 2010. The game 'Brothers in Arms' was a multiplayer online shooter with three different game styles: Team Deathmatch, Free-for-All and Capture the Flag. On March 11, 2010 ROBLOX released the first game that successfully made it to Steam titled "Guitar Hero For ROBLOX". The success of "Guitar Hero for ROBLOX" led ROBLOX to start working on their own downloadable games.

On September 4, 2018 (3:00 PM), ROBLOX released a new game called "Roblox Shops". This game is similar to Roblox High School and Friends, only that it's a shop simulator. The gameplay involves shopping and using items in order to get more money as you play the game. The game was started by the company's developer and the first player of the game was the CEO.

The Roblox website has undergone several changes in terms of design. All the current releases before October 10, 2010 had a different logo from the one that is currently used. The beta site is also a different color than the current homepage design. If you visit the old Roblox website [1] it will redirect you to the new Roblox website, although on rare occasions it will instead take you to an error page.

Rated 3 out of 5 by Anonymous from not good I have never played roblox before, but it's now my 3rd or 4th time playing and each time i load it, i get an error to say "login failed - 504". Rated 1 out of 5 by Anonymous from trash My user account got suspended for some reason. I didn't even know what roblox was until i got a message telling me that my account was suspended. That's it! Rated 2 out of 5 by Anonymous from To late Sorry I do not recommend getting this app. I only got it because I thought it would be fun to build a school and have students move in and learning the right skills. But that's not what this app is about.
