Roblox is governed by a global moderation team, consisting of volunteers and employees. Moderators monitor Roblox for inappropriate content like violence, nudity, profanity and copyright infringement. Moderators have the ability to mute, ban, or delete users from a game. Players can also report other players for inappropriate behaviour. In addition, moderators are expected to help players in need with moderation and issue resolution.

In 2010, they added an in-game browser which allows players to purchase resources with Robux from other players (mostly games). In 2014, they changed their website to a Flash-based platform. On November 11th of that year, the company finally launched their mobile app for iOS and Android devices.

On January 24th, 2019, ROBLOX released a plan for their future development. The main goal is to separate ROBLOX from its animation engine and make it its own game platform.[107] This will greatly cut down on the amount of time it takes to develop games for the site.
