ROBLOX is among the few websites that provide analytics data on their members. This data is collected from the number of visitors, members and games played. Many large groups have been created to publicize the statistics of ROBLOX. One such group is "We Hate Fake Players", which regularly posts ROBLOX statistics on its profile.[43]

Roblox is a video game platform created by American programmer David Baszucki in 2006 as a social game for children ages 8 to 13. The game is free to play, but contains some limitations like the amount of characters and objects that can be placed in a single game.

Rated 5 out of 5 by Anonymous from Amazing but scary I absolutely love this game. There is so much to do like make clothes, build houses, and even things on ROBLOX Studio. After I started building my own games I decided to start playing them and they are so intense. But I love it there is lots of challenges.

Anthem: On June 15th, 2018, ROBLOX announced a new game called "Anthem". It was a FPS which was heavily criticized for violating many of the company's policies. The game eventually received negative reviews from users who claimed it was simply an unfinished product. The company also ended up making an apology on their website.

I don't really have an answer for you, but I'm sure this is a problem that other people have as well. I think the game needs to be made less serious because people will not want to spend money on fake money (robux) if they know there's no real value behind those items they purchased with their fake money. The best way to accomplish this would be to make hats, shirts, etcetera for gamers who spend more than a certain amount of money.
