In July 2016, ROBLOX claimed that after the introduction of the new games and improved networking system "We will be supporting many more platforms than before." They also had made the game better so they would offer it on more than Windows, Mac OS X (Snow Leopard and below), Linux (Ubuntu and below).

Players could also get banned by moderators for sending unwanted messages to other users. A moderator could then ban a player's account for spamming other accounts or trying to bypass chat filters. There are other forms of trolling which can be found on Roblox today.

There are also a lot of other Roblox Cheats and Hacks that are available on the internet so be sure to check everything out and see what works well for you. I would recommend that you try the Roblox Generator out as it is very effective and will provide you with a ton of great items and weapons that will allow you to dominate your enemies on the battlefield. If you are having trouble locating the Roblox Generator on the internet or want to know more information about it, then don't hesitate to put in a comment below in order give us some additional insight or ask any questions that you have.

ROBLOX logo before 2014. The background was blue instead of red and white stripes were in the middle instead of the top or bottom.

ROBLOX logo before 2009. The background was green instead of red and white stripes were in the middle instead of the top or bottom. The logo used from 2009 to 2012 as a banner (not yet released). Using it as a banner, it was at the top when it was released to users, becoming more popular than the original image upon release (which it shared with Minecraft). Logo before 2012.

I have attempted to make a list of all the free Roblox code sites and codes I know of. You should be wary when using these codes, as some do not work anymore or may lead to viruses/malware on your computer. I've also made a list of which sites are safe and which sites are unsafe for you to visit. Please be cautious and do not enter any codes you have found in a comment on Youtube, on Reddit, or anywhere else. Always make sure to read the comments of the videos and follow all instructions before using them.
