In 2014, ROBLOX took the block system offline due to an exploit that allowed users to convert infinite amounts of blocks into real currency. They eventually brought it back online after fixing the exploit.

In April 2011, ROBLOX 'Escape Games' was converted into a mobile app. In July 2012, ROBLOX announced that they had released their second app for Android and iOS: 'ROBLOX TableTop'. In April 2013, ROBLOX officially released the Wallpaper Maker and the Voice Changer tools in the Roblox app. On June 22, 2015, ROBLOX announced that they had partnered with Lego to produce a new Lego-themed game (The first was LEGO Minifigures Online). They also partnered with Mayfair Games (UK) Ltd to release 5 new games based on Harry Potter. The game was released on September 28, 2015 and it was based on the book of Harry Potter and the Philosopher's Stone.

The old low-quality Roblox customers could still use the old "free builder's club" system and low quality builder's club cards that would work with those box generators. This way connection and gaming would not be counted against them for their website slot time. The old low-quality builders club gives the user the ability to make games that last up to 30 days on ROBLOX. Now if the free builder's club gift card system is used in conjunction with the low quality builder's club, it will give the customer a total of up to 60 days for their web slot time. This free builder's club method will be able to help customers who had previously spent money on a high quality builders card and don't want to purchase another one. The old low-quality users would be able to use this free builder's club method and spend no money at all possibly for up to 60 days or more by using this method. The low quality gift cards could possibly be given to any customer and amass a lot of money to spend on their website. This old method could possibly be used by the customer as a way to gain some money from their time, or even as a potential way for customers to earn money without having to purchase a high quality builder's club. Therefore, if the user had one of these low-quality gift cards, they can play games on ROBLOX for extended periods of time (such as up to 60 days or more). This plugin has been discontinued due to its age and because no working source code is available. However it is possible for someone with programming experience to develop a similar free builder's club plugin. Its functionality would be the same as the original one.

I have always wondered why people enjoyed playing Roblox so much. I think it's because it's very similar to Minecraft in many ways; for one thing, the graphics are very childish which got me interested at first. Because the game is customizable, you can choose to look at the world through a little boy's eyes or that of an adult. I chose to be an adult for a time, but it was always hard to play because it would become so boring. But at some point when I was playing Roblox, my interest in it started to fade away. The reason for this is because of the new updates they made to Roblox. Now there are so many advertisements everywhere and so many games being added every day. You never play with friends because everyone has their own account and their own games they are playing. Even if your friends are on, you have no idea who they are because they could just be anyone.

ROBLOX is the first game that was able to make an international monetary currency (Robux) that can be used for buying in-game items. [116] The next game to have a monetary currency was Habbo Hotel where they introduced Habbo Coins which are used for buying furniture, clothing, and accessories. [117]
