Some of the games on ROBLOX display ads on the top of their players' screen during gameplay. The player is able to skip these ads after 5 seconds, but if they do not and instead wait to see them out, then they will receive a small amount of ROBUX. In addition, members receive 30% extra revenue from games with ads placed above them.

The robustness of the software has had a positive effect on its players, some of who have even used this tool to make a fortune. This is not surprising since thousands of other players do the same thing. The average Robux income for an average player is around \$65 monthly but it can easily go up to over \$100. The fresh Roblox developer out there might be able to create and sell their own apps or games. While making an app in Roblox is fairly easy, it might take longer than one would think before they're ready to monetize it.

Chris Hutchins, the Vice President of Developer Relations at Roblox, has said that Roblox is hiring. The current number of users that have worked for Roblox is 17,000 and they hire about 400 employees each year.
