On February 4th 2019, ROBLOX released some updates for their Studio 2.1. They stated that they would be making many fixes on their website to improve the experience and to make it more stable and bug-free.[95] On February 11th 2019, ROBLOX released "Studio 2.2" which was a major update which contained bug fixes and minor improvements. On February 12th 2019, ROBLOX released "Studio 2.3" which was another smaller update containing bug fixes and minor improvements.[96]

ROBLOX has also been criticised for lacking any kind of quality assurance for its games. There have been many issues with the quality of some games and many users have complained that their game descriptions are not accurate. The site is also frustratingly inconsistent in the manner it deals with things like this, often banning users who complain about bugs and glitches within their games but not actually banning anyone who commits an illegal act, such as copying someone else's game and selling it without permission.

roblox is one of the most popular games out there on the internet for people aged 7-12, and it is pretty much all about building things with blocks in a 3D world. This means it is a game that requires strategy, thinking outside the box and creativity in order to have a hope at succeeding. roblox has been around for 7 years and has over 80 million monthly active users, making it one of the most popular games out there in terms of both quality and quantity.
