Roblox claims that she was fired because they found out she was using her workplace computer to dig up personal information about her co-workers and this affected her job performance. However, she claims that the only reason they are saying this is because they found out about her blog post and didn't want the bad publicity. Roblox also provided an email that Chris sent to HR in May of 2017 regarding erratic hours. She says that it was just a single complaint and wasn't fired for it.

People on ROBLOX are sometimes known to come up with their own language called "Robloxian", which is basically like a mix between English and gibberish. It is not really considered its own language because it's too simple and doesn't have any official dialects or countries.

Rated 5 out of 5 by Anonymous from Super fun, but gets expensive Really fun game, and very realistic in-game items. However after a while, it can get pretty expensive. It is currently \$8.99 USD to purchase an additional character slot. Definitely worth it at first, but you will eventually outgrow the game if you don't have the money.

However, they came out on January 31 as "Floating Skyboxes". These plots are a way for ROBLOX users to make money from their creativity and imagination. You still use Robux for them.
