Roblox and other similar games are compared in the table below. Game Similarities and differences ROBLOX Developed by David Baszucki. It introduced the ability to make your own places on the map and interact with other players in the same world. [127] There The first game to have a currency, where you earn coins through playing games. [128] It also introduced the ability for users to create their own houses by using a similar furniture system like in ROBLOX but with better design options. Habbo Hotel FriendBook was released, which is very similar to ROBLOX's Chat and Group Chat system where you can chat with other users from all around the world. [129] Habbo Hotel FriendChat was released, which is very similar to ROBLOX's Private Chat system where you can chat with friends from all around the world. There In the game, you have to fill a bar up with XP in order to level up. [130] Parkour Paradise Introduced the ability for players to create their own maps and create their own games. [131] Mario8 You are able to work on your character's status through doing quests and gaining XP by doing it. [132] Toontown Online Introduced the first "clothes" system for a character, where you can buy outfits in order to personalize your character and make them look different than others.

ROBLOX classifies its users as members in its Terms of Use. As a member, ROBLOX reserves the right to collect and share personal information, including member account data, e-mail addresses for communication with users such as surveys, notices about the service or changes to the Terms of Use or Privacy Policy, etc., IP addresses and cookies.[2] According to their Privacy Policy, ROBLOX may disclose personal information such as member account data to third parties in order to comply with legal obligations or prevent any illegal activity.

On September 5th 2018, ROBLOX targeted a large amount of its users by adding in-game ads on most games for free. Players would be given an ad in the bottom right corner of their screen with the option of clicking it to see more games. This is very similar to how Facebook and Google ads work, however, the Roblox ads cannot be clicked on and are only meant as a distraction. Users would need to leave the game before seeing the ad again or wait until they lose interest in playing any other game. The new system was rolled out in large parts making users question ROBLOX's integrity as a company.

ROBLOX has also joined and partnered with other websites that are similar to it such as Minecraft (Minecraft in ROBLOX) and Robloxian (Minecraft on ROBLOX). These games include games such as MinexCraft, the Grand Theft Auto series, My Top Games, and many others.

The game is not very challenging. Even though there are a lot of games available on it, there isn't much in the way of difficulty. This is a big negative in my opinion - especially for older kids who love to face tough challenges such as some video games on the market now which can sometimes be really difficult and where you have to wait for many hours in order to even pass the game. This might be a problem if you are playing with smaller children - some games on roblox are known to last for days or weeks before they finish. My 6 year old absolutely loves roblox and games like this are great for that age group. If you're looking to play with kids older than that then I'd suggest looking at something else. There is some violence in the game, but nothing major (for example you can only fight by swinging a sword or shooting a gun, rather than hand to hand fighting) and it's all in the context of a game. Overall we love it and it was worth the money!
