In October 2014, ArenaNet announced that Guild Wars 2 will be fully free-to-play with no restrictions on level or content,[60][61] due to being released as a core game in China, where games must provide full unrestricted access or it cannot be published by the People's Republic of China's Ministry of Culture. Within a few months, the game had rebounded from the effects of these restrictions, as the player base had grown to exceed that of the Asia server.

The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China, with over 50% of revenues coming from China alone by 2021. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX. In late 2015, ROBLOX announced that they would be running advertisements on their site. Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2015 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.

Roblox has been criticized for the number of advertisements in their games. In 2016, the company stated that one of their games had over 5 million advertisements. They also stated that over 18% of the players would click on the advertisements.
